THE DEADLOCK UNBROKEN. NO COMPROMISE REACHED IN THE THREE DAYS OF REST—A DISNAL PROSPECT. [BY TELEGRAPH TO THE TRIBUNE.]

WASHINGTON, April 11,-In the Senate to-day the war of words was renewed. The three days' m-terim did not serve to soften party asperity or to suggest any means by which the present parliamen-tary deadlock can be broken. One Senator said that the same reasons which pinced the Senato in the condition which it occupies to-day might logically keep it one year from now, and for that matter to the end of the Garfield Administration ; as, with the greatest possible Republican success in the Senatorial contests, the Democratic minority in the Senate cannot be reduced below the number necessary under the present rules and Constitution to deand the yeas and nays, which is sixteen votes.

their public speeches, and no less determined in their public speeches, and no less determined in their private utterances, than when the Senate adjourned last Thursday. The only difference in the general proceedings was the great increase in the number of pairs. There were thirty-eight Senators absent and paired; so that there was only a quorum yoting—thirty-nine. Senator Edwards, who, had voting-thirty-nine. Senator Edmunds, who had returned from Florida, could have voted to make a norum although he is paired with Senator Garland. David Davis, who has not chosen to be paired before on the dilatory motions, was to-day nnounced as paired with Mr. Kellogg. .

The speeches to-day were a rethreshing of the old traw. Whenever any Southern Bourbon is placed upon the defensive, he seems to invariably turn to New-England to hunt among the Blue Laws or some myths about the burning of witches as a justification. Senator Call, of Florida, to-day sought to de-fend the South from bulldozing by telling over the old story about New-England which has been told

since the Revolution. Senator Dawes replied to him with much spirit. Mr. Camden, of West Virginia—the new Senator, who made his maiden speech in the Senate—soon showed that he was not an orator. He read from a pile of manuscript the Bourbon theory of the West Virginia debt. He did not convince any Senators that West Virginia ought not to pay one-third of the debt of old Virginia, as none of the Senators remained in their seats to hear him. He was followed by Mr. Vest, of Missouri, who made a very bitter, severe Bourbon speech. Mr. Vest asked the Senators if they did not know that in the Northwestern States there had been repudiation of numicipal debts to an amount exceeding \$100,000,000, for all of which the Republican party is responsible. Mr. Vest said that \$30,000,000 of this repudiation has taken place in his own State of Missouri, and the remainder in Illinois, lowa, Kansas, Nebraska and Minuesota. Mr. Vest scorned to give any facts in suppert of his extravagant assertions. Mr. Beck will have the floor to-morrow. It is understood that he will devote himself to portraying the genormities of the "carpet-bag" government in the South.

REGULAR REPORT OF PROCEEDINGS.

WASHINGTON, April 11.—The Vice-President laid before the Senate the unfluished business, being the resolution for the election of Senate officers. A motion to go into executive session was lost-yeas,

19; nays, 20.

After remarks by Mr. Davis (Dem., W. Va.) and Mr. Dawes (Rep., Mass.), tending to show that each side of the chamber was determined in its course of action, Mr. Call (Dem., Fia.) took the floor in continuance of his Speech of Thursday last. He reiterated his statement that under the suffrage laws of Massachusetts more than 130,000 citizens were deprived of the right of the ballot. The laws of the Southern States on the suffrage question

Massachusetts.

Messrs, Dawes (Rep., Mass.) and Hoar (Rep., Mass.)
controverted these statements. Mr. Call criticised the
laws of Connecticut, which disqualified a man unless he
was of good moral character. He also alluded to the suffrage laws of Vermont and Rhode Island, and charged with inconsistency those Senators who contended for a free ballot in the South, while in their own States num-

ers of voters were disqualified.

After a brief speech by Mr. Dawes in defence of the

# INTERESTS OF THREE CHURCHES.

IMPORTANT QUESTIONS AT YONKEPS. A REPORT ON DIVORCE AND POLYGAMY-CONDI-TION OF WESLEYAN UNIVERSITY-THE CONFER-

ENCE TO MEET NEXT YEAR AT SING SING. The Rev. C. Palmer conducted the prayer-meeting with which the session of the New-York Methodist Episcopal Conference began yesterday. The Rev. Dr. Terry presented an invitation from the Asbury Church of this city to entertain the Conference next year, provided each minister paid \$5 toward defraying the expenses. The Rev. J. Y. Bates invited the Conference to the Links Sing Sing Port Year, For the Asbury ence to visit Sing Sing next year. For the Asbury Church 63 votes were east, and for Sing Sing 68. Sing Sing will therefore entertain the Conference next year.

President J. W. Bench, of Wesleyan University, was then introduced. He said that institution had never been in better condition than now, owing to recent gifts, Depocially those made by George I. Seney. [Applause.] There was no debt and the property was valued at A proposition had been made by Mr. Seney to speaker thought the Methodists had "much greatness on paper, hidden away in statistics," but they needed a ollege to advance the Methodist cause.

The Rev. Dr. W. H. Ferris, chairman of the committee appointed to consider the subjects of divorce and polygamy, then read its report. The committee spoke of the evident tendency of legislation to greater laxity on the subject of divorce. Divorces were obtained on the most frivolous pretexts. In the New-England States the proportion of divorces was one to eleven marriages. frequency with which divorces were obtained and the laxity of popular sentiment on the subject were shocking. It was not to be disguised that many sever-ances of the marriage tie were the "direct outgrowth of preceding ungody last seeking for new atfinities." The report concluded as follows:

While we admit the right of separation for sufficient Resided. That we recognize no ground for divorce ex-cept to violation of the Seventh Commandment. "Whom God half joined together let no man put asun-

der."

Resolved. That we will refuse to marry or admit to membership in our churches any who are divorced on inscriptural grounds.

In reference to polygamy the report stated that the pretended right of one man to more than one wife was an attempt to rob some other man of any, and involved an equal right of the woman to more than one husband. By the laws of Christian nations polygamy was held as a high crime against society and punishable by a heavy penalty. Utah had been, and was new, in an attitude of defiance against the Nation. The filth of its abominations was overflowing into other Tarritories, and in conjunction with Communism threatened to infect the Nation. The people's neglect in this matter had already become a National wrong, if not a crime. Under the limsy prefext that polygamy is an article of religious belief the Mormons claimed immunity and indulged their helish husts. This resolution was given in conclusion:

their helish hasts. This resolution was given in conclusion:

Resolved, That we highly approve President Garfield's inaugural address on this subject, and piedge our moral support for the extirpation of this hidseous wrong; that this Christian Nation can no longer timocently tolerate this foul blot upon our name, and we, as representatives in part of the Christian Church and ministry, protest begainst the outrage; that all needed legislation and enforcement of law ought to be had without delay for the suppression of this recking iniquity, and if these fail we commend the use of the sterner forces of the military arm; and that so much of the report as refors to congramy be sent to President Garfield and the Newfort State Senators, and that part relating to divorce to liovernor Cornell.

The report was adopted.

DISCUSSING MR. HOWLAND'S CASE.

MINISTER WHO HAS CAUSED SO MUCH TROUBLE ARKED TO "LOCATE." At yesterday's session of the New-York East

Conference, at St. John's Church, Brooklyn, after a short discussion on other matters, the Howland case was taken up. Dr. M. L. Scudder said that this matter had been a up. Dr. M. L. Seudder said that this matter had been a nauseous thing for twenty-seven years, and he desired to propose another disposition of the case. He thought it would be well to make it too warm for Mr. Howland by requesting him to withdraw; and if he did not then do it, he had, Dr. Seudder said, "the hide of a rhinoceros and the heart of an alligator."

Dr. Curry said he was glad of this speech as showing the spirit of those opposed to Mr. Howland. They could find nothing against him, but were determined to "make it too hot for him." He read a letter from some former parishioners who said that they had found Mr. Howland.

parishioners who said that they had found Mr. Howland acceptable to them.

parishioners who said that they acceptable to them.

Dr. Buckley did not approve of the motion to request Mr. Howland te withdraw, as it would establish a precedent by which any unpopular man could be made to leave the Conference. He was in favor of making Mr. Howland "locate" somewhere, and then if snything was found against him proofs could be brought forward.

Mr. Howland said that he supposed he was as sick of the matter as anybody. He found that those who were opposed to him were those who knew the least about him; those who knew him better were not against him. He had never depended on his salary for support. He had given his labors to the Church, and he had been instrumental in his ministry in the conversion of 1,140 some, and had more than doubled the membership of some churches with which he had been connected. He protested against being dragged before the Conference so many times.

The Rev. G. P. Maines said that the matter had been long enough a scandal to the Church. On the conclusion of these remarks there were loud calls for a vote, and a rising vote was taken—124 voting for the medion requesting Mr. Howland to "locate," and 24 against it.

THE NEW-ENGLAND METHODISTS.

Worcester, Mass., April 11.-Upon the opening of the New-England Conference this morning a re-port on the Bible cause was read and adopted commendport on the Bible cause was read and adopted commending the Massachusetts Bible Society for its work. The committee which examined the charges against J. W. Cole reported no ground for action. The Committee on Sunday Observance took radical ground against all secularizing of the day, such as public excursions, campineetings on Sunday, etc. The report was unanimously adopted. The sifts of Geo. L Seney and Mr. Hollis to the Wesleyan University were acknowledged by a special resolution. The Boston University was highly commended, and President Warren spoke of its flattering prospects. Dr. Kidder, secretary of the Board of Education in New-York, addressed the Conference on the needs of that Board.

DR. TYNG'S RESIGNATION.

DR. TYNG'S RESIGNATION.

The Rev. Dr. Stephen H. Tyng, jr., met the members of his congregation last evening in the Church of the Holy Trinity for the purpose of talking quietly with them upon the reasons for his resignation and the prospects of the church. He had, he said, no positive disease, but, although after his former sickness he had struggled to persuade himself that he could continue his worx, it had now merely become a question whether he should keep on in his present work for a year or two and then break down altocether, or should rest for a time, and afterward begin his work once more in this city. Of his plans for the future, he knew no more, he said, than his plans for the future, ke knew no more, he said, than his hearers. As long as he remained in this quarter of the world (and the report that he was going on a "protracted tour" abroad was utterly groundless he should hold on to one thing, and that was the Monday evening meetings in the chappel, for which he had a particular affection. These he feit that he could not give up.

After Dr. Tyng had finished, Joseph Bryan was called to the chair by the congregation, and resolutions expressive of regret and affection for Dr. Tyng were passed and ordered to be engrossed.

THE TEST SUGAR CASE. The United States Circuit Court room was crowded yesterday with persons interested in the impor-tation of sugar, the suit brought by S. & W. Welsh, sugar

crowded yesterday with persons interested in the importation of sugar, the suit brought by S. & W. Weish, sugar importers, No. 41 Wall-st., against Collector Merritt having been fixed for trial before Judge Wallace. The case is a test one and hundreds of others are depending on the result. Similar suits have been brought in all the principal ports of entry in the United States, and the amount at stake its said to be more than a million dollars.

In 1879 the plaintiffs imported large quantities of centrifugal sugars from Cuba, upon which they chain that the Collector exacted excessive duties. Some of the sugars were entered as being below No. 7 Dutich standard in color, upon which the duties would have been 12, cents a pound. The Collector, however, assessed the duty at the rate of 2 cents a bound, that being the rate payable on sugars above No. 7 and not above No. 10 Dutich standard in color. The Collector claimed that the sugar had been artificially colored by the nase of caramel or burnt nodesess after it had been manufactured, for the purpose of lowering the color of the engar for tariff purposes.

A few years ago the centrifugal sugars imported from Cuba were of a color that required them to pay 24 cents a pound duty. But after the passage of the act of 1873, which increased the duty on sugars of all kinds 25 per cent ad valorem, sugars of the same quality and having the same saccharine strength were imported having an apparent color which required them to be classified for duty at the rate of 12, cents a pound, The Treasury Department, in September, 1879, issued an order directing that sumars the apparent color of which was below No. 7 Dutch standard, but which possessed saccharines properties of 93 parts out of 160, should be classified at 24 cents a pound. The import cert of which was below No. 10 Dutch standard, but which possessed of the sugar sumars the apparent color of which was below No. 10 Dutch standard, but which possessed of the sugar sumars the apparent color in more sumars. SAN FRANCISCO, April 11.—The assessments delinquent in April amount to \$1,068,400. Of this, Nevada mines call for \$885,400. Bears claim the present activity and advance to be manipulation to induce the prompt payment of assessments. There are faint rumors of improvement in Sierra Nevada; nothing trustworthy, however, can be learned. The Board at 11 o'clock was in session a full hour. This was the first time in eight months that a session occupied this length of time. There were immense transactions, and, for the amount of stock sold, prices were well maintained. Popular opinion is that it is purely a "deal."

Paradise Valley has been assessed 7 cents per share.

share.

LEADVILLE, Col., April 11.—Little Chief resumed working this morning, the gas baving all disappeared from the mine. The boilers are throwing steam into Carboniferous. Little Fittsburg will not attempt to work New Discovery for a week yet. Hibernia has began breaking on a rich ore body on the Matchless line. Connection has just been completed. The ore shipments will be immense. Big Fittsburg took out \$50,000 ore from a single drift, thirty feet long on the Hibernia hae to the west, where twelve feet of exceedingly rich ore is exposed the entire length of the drift. Hibernia is likely to be the greatest shipper of ore of all the mines of the eather length of the drift. Informa is fixely to be the greatest shipper of ere of all the mines of Leadville for a long time to come.

The Robert E. Lee has struck ore to the north, by upraise, near the Matchless line.

A great strike has been made in the Milo mine, Elk Monntain, Ten Milo District, of a large amount of pure native silver.

gammb. pounds.
Silver King shipped on the 8th \$24,254 bullion.
Contention shipped \$40,000 bullion last week.
The Orion Company built a reservoir to accumulate water to run the mill, but it is doubtful whether this can be run more than lifteen out of thirty days.
Superintendent Luttrell, of the Richmond Pool, is lying dangerously ill from softening of the brain.

lying dangerously ill from softening of the brain.

Bullion valued at \$65,948 S1 was received in this city yesterday from the mines.

The Ontario Siver Mining Company produced \$84,601 09 bullion in ten days ending March 31, at an average of \$141 32 per ton worked. Product for month, \$230,238; for three months, \$584,193. Ore on hand March 31, 2,676 tons. The total length of 300 level is now 704 feet; of 600 level, 753 feet.

The superintendent of the Old Dominion Copper Mining Company telegraphs from the mine in Arizonn: "Twelve assays yielded an average of 39 per cent copper; is assays yielded an average of 42 per cent copper. Ledges widening."

At the annual meeting of the Small Hopes Consolidation, held yesterday afternoon, the following trustees were elected: R. C. Kerens, H. B. Denman, P. B. Plumb, W. S. Williams, Jonkins Van Schaick, L. M. Lawson, and A. Ebert. The trustees subsequently elected R. C. Kerens president, H. B. Den man vice-president, and A. Ebert, secretary.

The Iron Silver ore statement for the week ending March 31 is as follows: Ore delivered during the week, 1,312 tons; previously delivered in March, 4946 tons; total, 6,258 tons; amount received during the week, \$28,524 O8; previously received in March, \$92,614 43; total, \$121,138 51; ore delivered unpaid for, 1,530 tons.

The superintendent of the Leadville Consolidated

station on second level, main shaft, was to begin of April 10. The west drift, lower level, is showing us well.
